

Week Four of the 1st Term 2012

FALCON COLLEGE

ESIGODINI – ZIMBABWE

Dear Parents,

Thank you for the feedback after the weekend with your sons. I am very pleased at how positive this has been. Please keep this up – communication is the key.

Over the weekend we drew up the "Academic Awards" list. A special assembly was held on Tuesday where we presented these awards. The list is long and that is exactly how we would want it to be. I would like to thank the staff and boys publicly for their hard work in achieving these results. Our highest award, that of Honours, was awarded to Bongani Mtetwa for his 3 A's, a B and a C at 'AS' Level.

Our Under 17 Basketball team won the invitational tournament played at Falcon over the fixture free weekend. The tournament played out very well and was attended by members of the Olympic Committee who were impressed with our facility and the organisation of the event. The Falcon team beat a St. George's side who have never lost a game. I congratulate them.

I attended an I.C.T. Summit for African Countries at Victoria Falls last week. 18 African countries were represented and I.I.C.T. Companies were there showing off their latest products. Falcon College is indebted to our Minister of Education, The Honourable David Coltart, for the invitation and opportunity to be part of some amazing innovation. It was clear that Zimbabwe has a long way to go, to be where we need to be technologically. It most certainly provided me with a great opportunity to network with others and specifically with companies who can help us progress in this area. It really is a most exciting field.

This Friday is our "Open Day" as well as our annual "Primary Schools' Cricket Festival". I look forward to seeing as many prospective parents as I can and of course watching some great cricket being played at primary school level. We also have matches against C.B.C.

"Be a yardstick of quality. Some people aren't used to an environment where excellence is expected".
